

# DAMIR ČIČIĆ

SOFTWARE DEVELOPER

## About me

I am a junior programmer who knows Python fairly well and makes apps in Django. Recently, I have created an app that collects and sorts data from google drive and produces web pages containing those data. Currently, I am making an app that tracks prices from big retail stores and notifies the users about discounts. In the future, I would like to work on more sophisticated programs that involve complex data analyses and AI.

## Experience

- June 2018 - present** **Freelance web developer**  
(github: Matje1979)
- July 2017 - May 2018** **Časopis Turistički Svet**  
Translator, event organizer, journalist.
- July 2016 - December 2016** **Univates Univerzitet**  
Philosophy Professor, Lajeado (Brazil)
- January 2004 - October 2006** **Politika N&M**  
Journalist

## Education

- August 2019 - present** **Full Stack Coding Group**  
NYC  
Participated in workshops on algorithms and web development.
- July 2019** **SKIP Center**  
Belgrade  
Attended a web programming course.
- September 2009 - July 2016** **Central European University**  
Budapest  
Doctoral studies in philosophy
- October 2001 - May 2008** **Filozofski fakultet**  
Beograd  
Attended philosophy, logic and math courses.
